GRUPOTEL DUNAMAR

SUSTAINABILITY REPORT
(Indicators 2015-2017)
A sustainability indicator is any economic, social, political, or biological element that provides information about certain aspects of the natural world, environmental policies or other related economic and social factors. A sustainability indicator system enables us to make strategic, environmental and social decisions and helps us to turn this information into action.

We use the tool Sustainablekeyindicators.com, based on the GRI (Global Report Initiative), the international guide more used for sustainable development and indicator guidelines.

The aim of this management is to evaluate sustainable behavior to provide us information in order to ascertain whether our organization has the ability to meet the established requirements, whether these be legal requirements or ones to which the Management or third parties must adhere (ISO 14001:2015 norms, Travelife System,...)

The Grupotel Dunamar is a member of the Sustainable Hotels net in Balearic Islands.
En energetic consumption
ENERGETISCHE VERBRAUCH

Consumos de electricidad y gas natural por estancia (estancia: cliente por un día)
Electricity and Natural gas consumption per stay (stay: guest per day)
Strom und Erdgas Verbrauch per Aufenthalt (Aufenthalt: Gast pro Tag)

We have LED lighting in all the areas of the hotel and have a preventive maintenance plan that allows us to ensure the best performance of our energy facilities.

Every year we set new goals and challenges in reference to energy consumption, always guaranteeing the comfort of our customers.
We monitor daily the water consumption at the hotel, thanks to the installed counters. We have quality regulators in our taps which combine modern comfort with sustainable consumption.

We have also started monitoring water consumption of the swimming pool and osmosis system.
GESTIÓN DE LOS RESIDUOS / MANAGEMENT OF WASTE
BEWIRTSCHAFTUNG VON ABFÄLLEN IN THE GRUPOTEL DUNAMAR

% of waste assimilable to urban generated by fractions (Paper and cardboard waste, light packaging waste and glass waste) per stay 2017

IHRE ZIMMERMÄDCHEN WIRD AUCH IHRE PACKAGING UND MAGAZINE WÄHLEN.
82% of our suppliers are local entities

Grupotel Hotels & Resorts support the local community trying to get as most as possible local products and to work with local agrarian cooperatives.

The SON RAMON winery (founded 1649) lies in the municipality of Llubi, between the towns of Llubi and Muro.

As long ago as 1760, the estate was formed by 37 hectares of vineyards and an old Majorcan wine cellar, which is still conserved today. At the beginning of the past century phylloxera plague invaded Mallorca, and as in many other wineries all the vines had to be pulled up.

In 2005, the Ramis-Fornés family launched a new project with the oenologist Josep Lluís Pérez to plant ten hectares of vines and build a new winery equipped with the latest wine-making technology.
